EDUCATION

International Burch University
Bachelor of Information Technology

Sarajevo, BiH
Sep. 2024 – May 2027

Electrical Engineering High School
Computer Technician/Computer Science

Tuzla, BiH
Sep. 2020 – May 2024

PROJECTS

OLX.ba Mockup : Online marketplace for buying and selling products | *React.js , Node.js (Express), PostgreSQL, TailwindCSS*

- Developed a full-stack online marketplace mockup for buying and selling products using React.js for the front-end.
- Implemented RESTful APIs with Express and Node.js for efficient server-side operations.
- Utilized PostgreSQL for reliable and structured data management.
- Styled the platform using TailwindCSS to ensure a modern, responsive design and user experience.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML/CSS, JQuery, C++

Frameworks: React (Redux, React Router), Next.js, Node.js (Express), TailwindCSS

Databases : Postgres, MySQL, MongoDB, Google Firebase

Developer Tools: Git, Github, React Developer Tools, Postman, VS Code, Visual Studio, Figma

ACHIEVEMENTS

Stem Hub Hackathon Winner

- Worked in a team of three to develop a full-stack web app for school admissions, winning the STEM Hub Hackathon.
- Revolutionized the traditional school admission process with a user-friendly, efficient application.
- Utilized Next.js, Tailwind CSS, Firebase, and a JavaScript library for image-to-text conversion to build the app.
- Contributed significant code and implemented key features, enhancing the app's functionality.
- Successfully pitched the project, demonstrating its potential to streamline school admissions, leading to first place in the competition.

Third place at BH Engineering Week Hackathon

- Achieved third place at the BH Engineering Week Hackathon with a project aimed at enhancing university campuses in Tuzla.
- Collaborated with a team of four to design and implement a practical solution.
- Competed against high school and college students from across Bosnia and Herzegovina.
- Applied an innovative mindset and dedicated effort to develop an effective project.
